Amtico Entryway

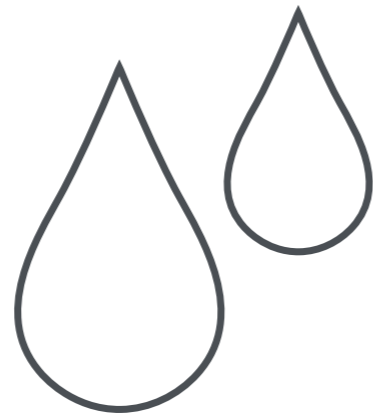

Your floor's first line of defence.

Amtico Entryway is tough, resilient and protective.

Scraper fibres remove soil and debris, while reinforced nylon fibres remove moisture. The combination of these two types of fibres provides optimum soil and moisture removal.

Scraper fibres can hold 2.5 times more sandy debris than its normal weight: **3.25kg per square metre.**

It can also capture 3 times more moisture than its normal weight: **3.2 - 3.6kg.**

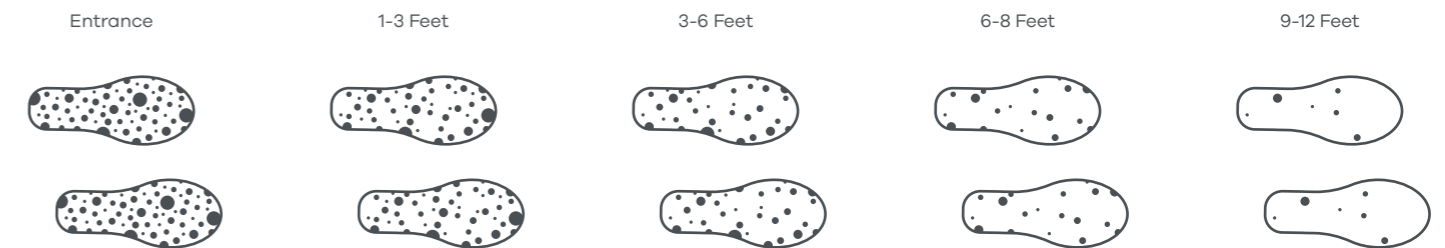

Amtico Entryway

Part of an integrated flooring solution.

Amtico Entryway is designed to work effectively with our LVT flooring.

We recommend installing at least 6-8 foot-falls of Entryway tiles or planks in each entrance area. This will allow the system to achieve an optimum level of performance and also improves safety by minimising slip hazards.

Proper cleaning in entryways and other entrance areas is also essential for the maintenance of the flooring throughout a building. Focus cleaning efforts on entryways to ensure the beauty and longevity of your entire flooring investment.

The Collections

Inertia Specification

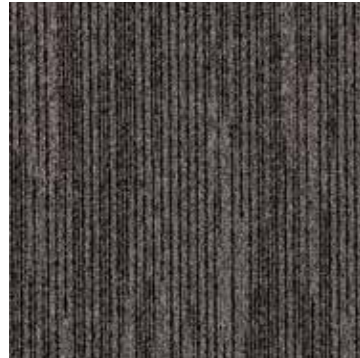

Fibre	6,6 Nylon
Dye Method	Solution dyed
Pile thickness	5.2 mm
Total thickness	8.7 mm (+15%/-10%)
Backing	Woven Polyester/PVC
Warranty	10 Years Limited
Suitable for Stairs	Yes (with protective nosings)

Charge Specification

Fibre	6,6 Nylon
Dye Method	Solution dyed
Pile thickness	5.4 mm
Total thickness	8.8 mm (+15%/-10%)
Backing	Woven Polyester/PVC
Warranty	10 Years Limited
Suitable for Stairs	Yes (with protective nosings)

Force Specification

Fibre	6,6 Nylon
Dye Method	Solution dyed
Pile thickness	5.0 mm
Total thickness	9.0 mm (+15%/-10%)
Backing	Woven Polyester/PVC
Warranty	10 Years Limited
Suitable for Stairs	Yes (with protective nosings)

Visit amtico.com for more information on our product range, inspiring ideas, maintenance and installation advice. Every effort is made to achieve accurate reproduction of products in this brochure, however printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They give only a general indication of the design. Tone and shading can vary slightly from batch to batch and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification. All metric sizes are rounded. All products are manufactured in line with EN649, EN ISO 10582 and EN1307. Brochure correct at the time of printing.
